

Futurlined: I've had this bus for 26 years. This bus has turned into an absolute show-bus.

Over the years I've taken it to many shows: Fontana's Speedway, NASCAR races, Andy Cass, Truck races. Always a big hit at air shows Cass & bus shows. At the last bus show @ Pomona Fair grounds it took in \$1,900 in two days @ \$1.00 a head. This bus has been the hit of every show it has attended. People flock to this vehicle. There are always at least 20 people in line waiting to go through. This is the only Futurlined with art-deco interior. This bus is the most unique & historic bus in the world. Only 3 of the initial 9 are running in the world. This bus makes money wherever it goes.

This bus stands out over Procast, Mat, Eagles; all top of the line buses.
